

LOGO CARD HOLDER *FROM A QUILTER'S TABLE*

Supplies Needed

- Approximately 4 fat-quarters coordinating fabric or assorted scraps
- Lightweight interfacing
- 2" piece Velcro
- Coordinating thread
- 3 1/2" x 5 1/2" Moleskine notebook

All seams are 1/4"

Cutting Instructions

Cut out fabric pieces for large and small covers and strap.

For main organizer:

8" x 11" piece for main front

8" x 11" piece for main lining

2 - 6 1/2" x 8" pieces for main pockets

For moleskine notebook cover:

6 1/2" x 8 1/4" piece for cover front

6 1/2" x 8 1/4" piece for cover lining

2 - 5 1/2" x 6 1/2" pieces for cover pockets

For strap:
6 x 14" piece

Cut out interfacing for large and small covers and all 4 pockets.

For main organizer:
2 - 7 1/2" x 10 1/2" interfacing for main front & lining
2 - 3" x 7 1/2" interfacing for pockets

For moleskin notebook cover:
2 - 6" x 7 3/4" interfacing for cover front & lining
2 - 2 1/2" x 6" interfacing for cover pockets

Interfacing is cut 1/4" less on all sides of main front, main lining, cover front, and cover lining pieces. Carefully center each interfacing piece on wrong-side of appropriate fabric piece and adhere per product instructions.

Interfacing is cut 1/4" less on three sides of main pocket and cover pocket pieces. Carefully place each interfacing piece on appropriate pocket piece, allowing for 1/4" seam allowances on left edge, top, & bottom. (Right edge of interfacing piece will align with center of pocket piece.) Adhere interfacing to all pocket pieces per product instructions. Fold each pocket piece in half and press.

Top-stitch all pocket edges.

Pin pockets of notebook cover to right-side edges of main lining and baste in place. Repeat for pockets of cover lining.

Mark left main pocket with removable marker as desired to fit the cards you wish to store. (To allow top & bottom slots to fit regular-size business cards and center slot to fit mini-cards, I measured & marked $2\frac{3}{8}$ " and $2\frac{3}{4}$ " from both top & bottom, then $\frac{3}{8}$ " in from left side on center slot only.)

Stitch on lines you have drawn, to create card slots.

Pin main front and main lining, right sides together. Stitch all around, leaving hole to turn. Clip corners before turning right side out.

Press well and topstitch close to edges of cover.

Repeat to finish notebook cover.

You now have two separate completed pieces.

Due to the thickness of the multiple fabric layers of the strap piece, it is not interfaced. Fold and press in half lengthwise, then fold and press long edges in to meet in the center. Fold and press in 1/4" on each long end.

Fold strap so raw edges are all enclosed and press well. (The strap is now 4 layers thick.) Top-stitch as desired. (I sewed several lines along the length of the strap.)

Stitch one half of Velcro piece to each end of strap, stitching on alternate sides, as shown.

Draw a removable line down center of both main lining and cover lining. Align them, centering cover between top & bottom of main organizer. Pin in place.

Flip project over and pin strap in place, lining up strap to right edge of organizer, centering strap between top and bottom.

Flip project back over and sew all layers together along lines, removing or carefully sewing over pins as you choose, being careful to keep all layers aligned. If desired, reinforcing stitching at top and bottom of cover as you sew over those edges.

Your logo card holder is complete!
